

STEP-BY-STEP GUIDE

How to Switch from COAX to BEC

Use this guide to help you seamlessly switch your connection from your COAX modem to BEC router for proper connectivity.

**STEP 1:**

Ensure the Internet light on the BEC router is green, which means it is online and ready to use.

**STEP 2:**

Unplug the Ethernet cable from the COAX modem and plug it into an available port on the BEC router.

**STEP 3:**

Confirm your internet connection by checking if your devices load successfully.

STEP-BY-STEP GUIDE

How to Switch from BEC to COAX

Use this guide to help you seamlessly switch your connection from your BEC router to COAX modem for proper connectivity.

STEP 1:

Unplug the Ethernet cable from the BEC router.

STEP 2:

Connect the Ethernet cable directly to the COAX modem.

STEP 3:

Restart the COAX modem so it detects the connection.
