

Stay Connected *Track Your Fleet with Ease*

DOCOMO PACIFIC'S MaxTrack is a powerful GPS tracking solution that helps businesses monitor fleets, optimize routes, and enhance efficiency. Our user-friendly web portal provides real-time vehicle tracking, full route monitoring, geofencing, email alerts, multiple map views, automated reports, and video monitoring with **MaxTrack Vision—plus AI-powered alerts with MaxTrack Vision+.**

Supported by the **widest mobile network across the Marianas**, MaxTrack keeps you connected to your fleet, assets, and customers—anytime, anywhere.

Key Benefits and Features:

Optimized Fleet Performance

Track your vehicles in real time and improve routing, dispatching, and productivity to keep operations running smoothly.

Enhanced Efficiency

Get detailed reports on driver activity, mileage, and vehicle performance to increase fleet efficiency and cut unnecessary costs.

Maximum Coverage

Utilize GPS and GPRS data on DOCOMO PACIFIC'S network, the fastest and most reliable network in the Marianas.

Improved Safety & Security

Set up geofencing alerts, speeding notifications, and driver behavior monitoring to prevent unauthorized vehicle use, reduce risks, and promote safer driving habits.

Unparalleled Visibility

Gain real-time driver and road video footage with MaxTrack Vision, and unlock AI-powered insights with MaxTrack Vision+ for enhanced visibility.

Access Anywhere, Anytime

Monitor and manage your fleet at the office or on the go with MaxTrack's web portal and mobile app.

MaxTrack Plans

Features	MaxTrack Fleet	MaxTrack Vision	MaxTrack Vision+
GPS Tracking Track your vehicles in real time, view where they are, how fast they are moving, and where they have been.	✓	✓	✓
Customizable Alerts Set up alerts that let you know when things go off track whether it's speeding, entering a restricted area, or other restricted vehicle uses.	✓	✓	✓
Advanced Reporting Get detailed reports that help you understand how your fleet is performing.	✓	✓	✓
Geofencing Create virtual "fences" around specific areas on the map and receive notifications whenever a vehicle enters or leaves those zones.	✓	✓	✓
1080p Video Recording Capture clear, high-definition video of your fleet's activity, so you can review driving events.		✓	✓
AI Driver Events Using smart AI, spot risky driving behaviors like hard braking, rapid acceleration, or driver distraction, helping you stay on top of safety in real time.			✓
6-axis Accelerometer Measures motion in six different directions, helping track precisely how your vehicles are being driven.			✓
