

Global Carrier Network

An Innovative Leader Businesses Trust

Because we're backed by NTT DOCOMO—one of the largest mobile and total communication providers in the world—we're rooted in a global brand that is established as a market leader in both innovation and technology.

Ethernet Network Services

We provide redundant links, scalable network capacities ranging from 10Mbps to 100Gbps, and low latency across a wide area network.

MEF 3.0 Certified Provider

DOCOMO PACIFIC is the first company in the Marianas to obtain the MEF 3.0 Certification. This certifies we have demonstrated that our solutions conform to rigorous specifications established by the industry's defining authority for standardized network-based services.

Data Center Colocations

Our data center colocation facilities offer a 99.99% uptime service-level agreement, dedicated & private connection options for hundreds of network cloud and IT service providers.
